PROFESSIONAL SUMMARY

"I am a motivated Computer Engineering student with a strong passion for problem-solving and web development. I enjoy learning new technologies and applying them to real-world projects. With solid teamwork, communication, and collaboration skills, I thrive in fast-paced environments."

SKILLS

Programming Languages and Tools: Java, JavaScript, HTML5, CSS3, Bootstrap, SQL, Git, GitHub, DSA.

Frameworks and Libraries: Hibernate, Spring, Spring Boot, Spring Security, Spring AI, Microservices, AWS.

Databases: MySQL, MongoDB.

Operating Systems: Linux, Windows.

EDUCATION

Pravara Rural Engineering College (PREC)

Bachelor of Engineering in Computer Engineering SGPA:-9.10

Loni, Maharashtra

Dec. 2021 – July 2025

Dr. D.A. Ohara Jr. College, Sangamner

Higher Secondary Certificate, Maharashtra State Board

Sangamner, Maharashtra

2019 – 2020

EXPERIENCE

TranspoGov – Public Transport & Mobility Governance System (CTS)

Full Stack Developer (Cognizant Technology Solutions Project) — [GitHub](#)

Chennai, Tamil Nadu

Jan. 2026 – June 2026

- Developed a full-stack transport governance platform featuring secure **RBAC authentication**, ticket booking, route & schedule management, and real-time notifications.
- Implemented robust modules for **compliance monitoring**, audit logging, resource management, and interactive analytics dashboards to enhance operational transparency.

TechnoGrowth Software Solutions Pvt. Ltd.

Full Stack Java Developer — [Certificate](#)

Pune, Maharashtra

Mar. 2025 – Dec. 2025

- **Web Scrapping** — Developed a full-stack web scraping application using **Java, Spring Boot, HTML, CSS, and JavaScript**. Implemented JSoup-based scrapers to efficiently extract website data including video links, images, and URLs, and displayed the results in a responsive UI.
- Built a responsive and user-friendly **Banking System Web Application** using **HTML, CSS** for the frontend and **Spring Boot** for the backend to manage user accounts, transactions, and customer profiles.

PROJECTS

TranspoGov - Public Transport & Mobility Governance System | *Spring Boot, React, MySQL*

- * Developed a full-stack **transport governance platform** with secure **RBAC authentication**, ticket booking, route & schedule management, and real-time notifications.
- * Implemented modules for **compliance monitoring**, audit logging, resource management, and analytics dashboards to improve operational transparency and decision-making.

2. Smart Expense & Budget Management System | *Spring Boot, Rest API, MySQL, Angular*

- * Built a **FinTech-style web application** with **income/expense tracking**, automated **data visualizations**, integrated **savings goals** and budgeting, **PDF report generation** with password encryption, **email notifications**, and **QR code** creation for secure financial management.

3. Reusable Auth System | *Spring Boot, Spring Security, Spring AI, OAuth2, Email Services*

- * Developed a modular **Reusable Auth System** using **Spring Boot** and **Spring Security**, enabling secure authentication, role-based authorization, and encrypted password management.
- * Integrated **OAuth2 authentication** with Facebook, Google, Microsoft, and GitHub, providing seamless multi-provider login support.
- * Configured **email services** for account verification, password reset, and login notifications, and utilized **Spring AI** to automate authentication workflows.
